Re: Appeal T12/405A – Francis Gallagher
Loughros Mor Bay, Ardara Co. Donegal.

Dear Sir, Madam

I am the Chairman of the Owenea Angling Club which enjoys the right to fish on the Owenea river and estuary. We note that the department of Agriculture had turned down this application for various reasons. We now see that this is appealed to ALAB.

We are requesting that the aquaculture licensing appeals board uphold the minister's decision not to grant this licence as oyster trestles in this area would totally impede and obstruct our sea trout fishing in the estuary, including night time sea trout fishing. We have done this for years.

We have a lease agreement with IFI on this fishery and rely on revenue from estuarine sea trout fishing. Oyster trestles cannot be placed where we have the right to fish.

We enclose the fee of €152.37 made payable to the aquaculture licensing appeals board.

AQUACULTURE LICENCES
APPEALS BOARD
